Cloud Class

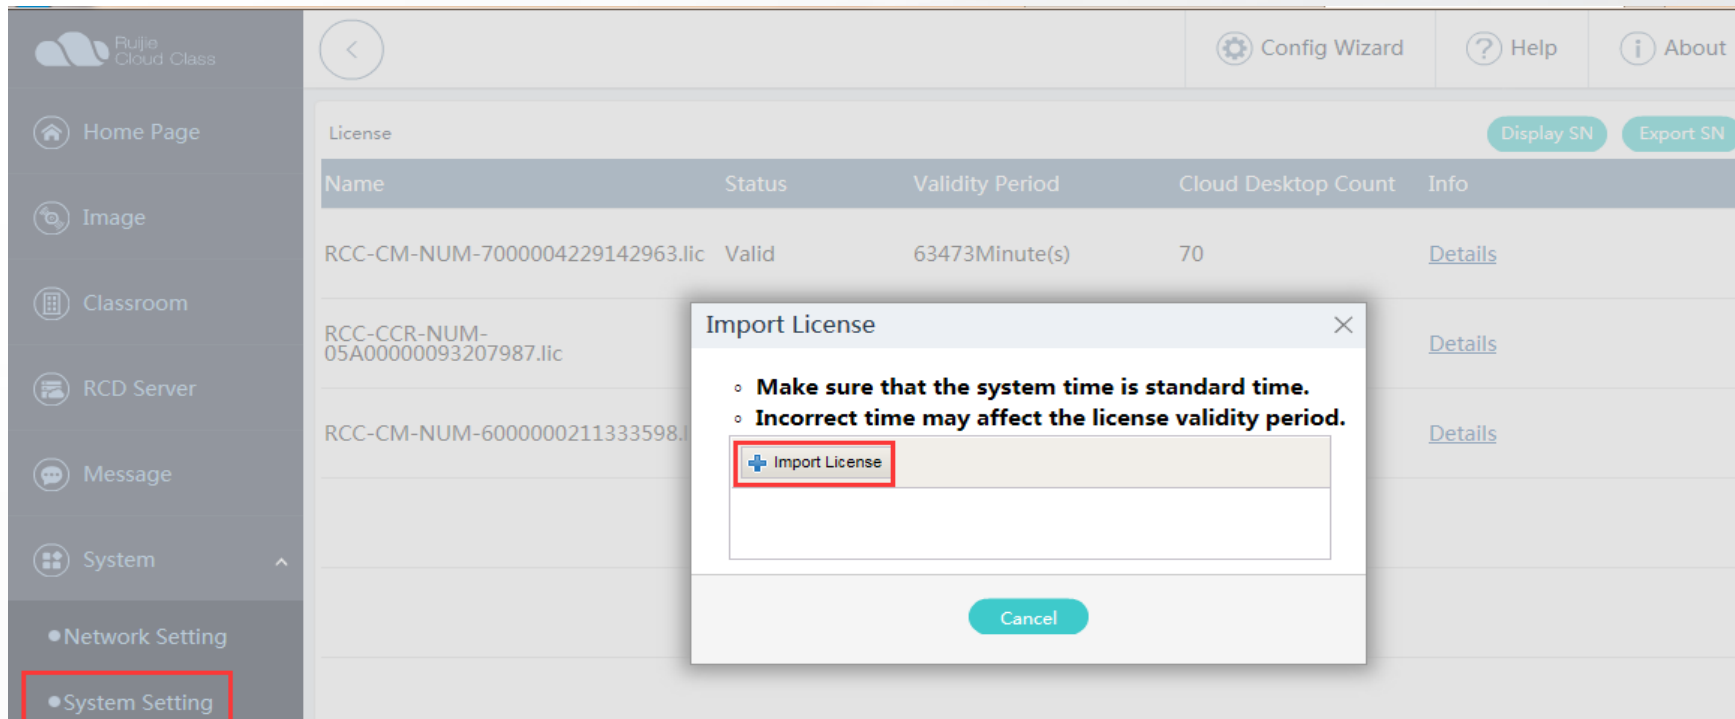

The screenshot shows the 'Ruijie RG-PA Ruijie Product Authorization System' interface. At the top, there is a header with the Ruijie logo and the text 'RG-PA Ruijie Product Authorization System'. Below the header, there are two tabs: 'Temporary License' and 'Unbind License'. The 'Temporary License' tab is selected. Below the tabs, there is a 'Location: Homepage' label. To the right, there is a text input field for 'Dog SN/Device SN/ Authorization Code(Detail)'. Below this, there are two buttons: 'Bind License' and 'Apply for dog'. The 'Bind License' button is highlighted with a red arrow. Below the buttons, there is a table with the following columns: 'Authorization Code', 'License', 'Quantity', 'Customer', 'HardwareNumber', 'DogSN/Validation Code', 'Applicator', 'Applied', and 'Statu'.

Authorization Code	License	Quantity	Customer	HardwareNumber	DogSN/Validation Code	Applicator	Applied	Statu
--------------------	---------	----------	----------	----------------	-----------------------	------------	---------	-------

File License Registration via Official Website

Instructions of Process

- Step1: Obtain device S/N and the authorization code from the certificate of license file .
- Log in to the RCD Server, and click **System -> License -> Display SN** to obtain device S/N.
- Open the attachment in the Authorization Letter ,to obtain the license register number.

Unbind License

Instructions of Process

- Step2: Visit official website (<http://www.ruijienetworks.com/service/License.aspx>) to unbind license.

Click **Service** -> **Product Licensing** -> choose **Cloud Class** for unbinding license. Choose **Unbind License** -> click **Unbind License** in the top-right corner, then click **Complete** after filling in related info.

Note :After completing the application, submitted it to Tac for application via e-mail account: service_rj@ruijienetworks.com. And then waiting for approval.

The diagram illustrates the navigation path for unbinding a license. On the left, a cloud icon is labeled "Cloud Class". A red arrow points from this icon to the "Cloud Class" tab in the "RG-PA Ruijie Product Authorization System" interface. Another red arrow points from the "Unbind License" button in the top navigation bar to the "Unbind License" button in the top-right corner of the application form. A third red arrow points from the "Unbind License" button in the top-right corner to the "Unbind License" button in the top-right corner of the application form.

The interface shows the "RG-PA Ruijie Product Authorization System" with a top navigation bar containing "Temporary License" and "Unbind License". The "Unbind License" button is highlighted. Below the navigation bar, the "Location: Unbind License" is displayed. The "Cloud Class" tab is selected. The application form includes fields for "SN", "Authorization Code", and "Status", along with "Search" and "Reset" buttons. The "Application List" table is shown below the form, with columns for "SN", "Authorization Code", "Applied", "Application Reason", "Change Type", "Status", "Reviewed", and "Operate". The "Unbind License" button is located in the top-right corner of the application form.

Unbind License

Instructions of Process

- Step3: If you want to generate new license file after unbinding license successfully.
